Target Retirement System

State: Nevada

Primary pension system: Public Employees' Retirement System of Nevada

Common names: Nevada PERS, NVPERS, PERS

Primary target member type: Regular Members working for Nevada public school districts, charter schools, state education agencies, colleges, and universities

1. Nevada Retirement Eligibility Signals

Use these instead of "Rule of 80" or "Rule of 85":

3. NVPERS Enrollment-Tier Signals

Avina must identify the employee's likely PERS enrollment cohort whenever possible.

Pre-2010 Members

"enrolled in PERS before January 1 2010"

"PERS pre-2010 member"

"Nevada PERS 30 years any age"

"Nevada PERS 10 years age 60"

"employee buyout" Nevada school

"early retirement incentive" Nevada school

"voluntary separation incentive" Nevada school

"retirement incentive program" Nevada school district

"budget balancing plan" Nevada school district

"declining enrollment" Nevada school district

Why These Matter

Budget pressure can cause experienced educators to consider retirement earlier than planned. However, a budget article alone is not enough to identify an individual prospect. Avina should combine it with service milestones, retirement language, board records, or event participation.

8. Nevada Pension and Legislative Change Signals

24. Service-Credit Purchase Signals

These are particularly valuable because purchasing service often happens near a retirement decision.

"Nevada PERS purchase service credit"

"NVPERS purchased service"

"Nevada PERS service purchase estimate"

"buy years of service Nevada PERS"

"purchase additional service credit Nevada"

"rollover 403b to purchase PERS service"

"Nevada PERS purchase agreement"

"Nevada PERS payoff service purchase"

"restore refunded service credit Nevada"

"Nevada PERS repayment of refund"

"service credit restoration Nevada PERS"

"military service credit Nevada PERS"

"purchased service retirement deadline Nevada"

High-Intent Trigger

A public request, workshop, document, or announcement concerning a service-credit purchase within one year of retirement should receive a high score.

25. Retirement Application and Separation Signals

"submitted retirement application" Nevada educator

"retirement application received" Nevada school

"retirement effective date" Nevada teacher

"retirement benefit deductions" NVPERS

"health premium deduction PERS benefit" Nevada

Note: Verify whether the employee participates in the state Public Employees' Benefits Program or a district-specific health plan before assigning this signal.

27. Post-Retirement Employment Signals

"Nevada PERS reemployment"

"return to work after NVPERS retirement"

"Nevada PERS 90 days"

"retired teacher returning to work" Nevada

"rehired retiree" Nevada school district

"retired employee reemployment" Nevada school

"critical labor shortage retiree" Nevada

"retired teacher substitute" Nevada

"post-retirement employment" Nevada public employee

"Nevada PERS benefit suspension reemployment"

"non-PERS eligible position after retirement"

"retiree earnings limitation" Nevada PERS

These signals indicate both retirement timing and the need to understand how reemployment may affect pension benefits.

28. Negative Keywords and Exclusions

Exclude or heavily down-rank:

"Texas TRS"

"Teacher Retirement System of Texas"

"TRS of Texas"

"Rule of 80"

"Rule of 85"

"CalSTRS"

"CalPERS"

"Arizona State Retirement System"

"ASRS"

"private employer pension"

"student retirement project"

"sports retirement"

"product retirement"

"software retirement"

"retired jersey"

"retirement community"

"retirement home"

"military retirement"

"federal employee retirement"

Important Exclusion Rule

Do not use “DROP program” as a default Nevada teacher-retirement signal. It is strongly associated with other state systems and will generate noise unless a specific Nevada public employer document explicitly uses the term.

29. Avina Nevada Signal Scoring

Tier 1 — Immediate Retirement Intent: 90–100 Points

- Retirement application submitted
- Board accepts an employee’s retirement
- Public retirement announcement with an effective date
- “Retiring at the end of this school year”
- Participation in Ready to Retire Program
- Retirement paperwork or application deadline
- Retirement benefit-option selection
- Final day or retirement effective date published
- Service-credit purchase immediately before retirement

Tier 2 — Strong Eligibility: 75–89 Points

- 30 years of service
- 33 or 33½ years of service
- Age and service combination matching the employee’s enrollment tier
- Public request for PERS benefit estimate
- Early-retirement calculation
- Unreduced-retirement eligibility
- Retirement recognition event
- Long-service award plus retirement language

Tier 3 — Active Planning: 55–74 Points

- Planning Ahead for Your Retirement attendance
- Retirement seminar or workshop
- PERS counseling appointment
- Benefit-estimator usage or inquiry
- 403(b), 457(b), Medicare, or retiree-health planning
- Purchase-of-service inquiry
- Beneficiary-option research
- Retirement-readiness communication

Tier 4 — Environmental Pressure: 30–54 Points

- District budget deficit
- Reduction in force
- Position elimination
- School closure or consolidation
- Retirement incentive proposal
- Pension contribution increase
- Legislative change affecting PERS
- Contract negotiation involving retirement

Tier 5 — Weak Awareness: 10–29 Points

- General retirement article
 - Generic financial-wellness event
 - General pension newsletter
 - Employee with 20–24 years of service and no retirement language
 - Generic social post without Nevada employment verification
-

30. Confidence Multipliers

32. Mandatory Verification Rules

Before marking a Nevada educator as retirement-ready:

1. Confirm the person works or worked for a Nevada public employer.
2. Confirm the person is an educator or target school employee.
3. Distinguish an actual retirement from a resignation, transfer, or contract non-renewal.
4. Identify the person's likely PERS enrollment cohort.
5. Do not assume eligibility from service years alone when an age requirement applies.
6. Do not use Rule of 80 or Rule of 85 calculations.
7. Do not assume every Nevada teacher has the same benefit multiplier.
8. Do not infer private financial circumstances.
9. Do not guess personal emails.
10. Use only publicly displayed professional contact information.
11. Require human review before outreach for sensitive or ambiguous signals.
12. Suppress anyone who opts out.

33. Nevada High-Value Signal Categories

Avina should prioritize:

1. **NVPERS enrollment-tier eligibility**
2. **30-year and 33½-year service milestones**
3. **Ready to Retire Program participation**
4. **Retirement applications and effective dates**
5. **School-board retirement approvals**
6. **District HR retirement communications**
7. **Service-credit purchase activity**
8. **Early-retirement benefit calculations**
9. **Retirement celebrations and public announcements**

10. **Budget deficits, reductions in force, and retirement incentives**
 11. **Nevada PERS legislative or contribution changes**
 12. **Retiree-health and Medicare transition planning**
 13. **403(b) and 457(b) distribution planning**
 14. **Public “final school year” or retirement-countdown posts**
 15. **Post-retirement reemployment questions**
-

34. Nevada Agent Search Pattern

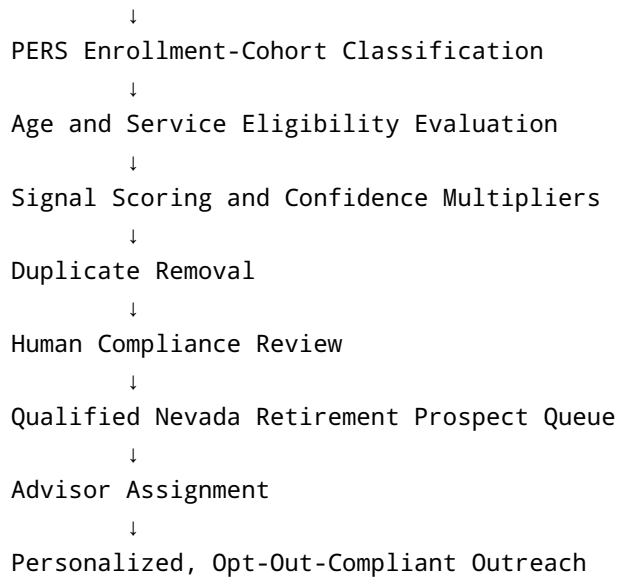

For each Nevada school district, Avina should run:

```
DISTRICT NAME + retirement
DISTRICT NAME + NVBERS
DISTRICT NAME + Nevada PERS
DISTRICT NAME + retirement seminar
DISTRICT NAME + retirement recognition
DISTRICT NAME + personnel retirement
DISTRICT NAME + board agenda retirement
DISTRICT NAME + 30 years of service
DISTRICT NAME + retiring teacher
DISTRICT NAME + early retirement incentive
DISTRICT NAME + reduction in force
site:DISTRICT-DOMAIN retirement
site:DISTRICT-DOMAIN PERS
site:DISTRICT-DOMAIN filetype:pdf retirement
```

The searches should be randomized by district rather than processed alphabetically.

35. Recommended Avina Nevada Workflow

```
Nevada District Source List
↓
Random District Selection
↓
District Website and Board Document Search
↓
NVPERS Event and Government Monitoring
↓
Public News and Professional Social Monitoring
↓
Person and Employer Verification
```

Core Nevada Positioning

Avina Nevada should not search broadly for “people who might be old enough to retire.”

It should detect Nevada public educators entering a documented pension or financial-planning decision window based on:

- NVPERS enrollment cohort
- Age and service-credit threshold
- Public retirement action
- Retirement education participation
- Service-credit purchase
- District personnel records
- Retirement-effective dates
- Benefits and distribution planning
- Workforce or budget pressure

This creates a higher-quality, event-driven Nevada educator retirement pipeline without relying on Texas rules, guessed eligibility, or generic retirement keywords.
